

At the frontiers of condensed matter VII

December 18 to 20, 2024 - Buenos Aires, Argentina

At the Frontiers of Condensed Matter VII - FCM2024

FOURTH CIRCULAR

This is the fourth circular of the workshop FCM2024 that will be held in Buenos Aires on December 18th-20th.

This time we announce that the Organizing Committee will offer:

- Financial assistance to people from Argentina
- Financial assistance to latin american students and young researchers.

In both cases, the amount of the economical support will depend on the number of interested participants. We kindly ask you to email the organizing committee (fcmvii.2024@gmail.com) before 30th September indicating a need for financial assistance.

Reminder of important dates:

Early registration: 13th May - 21st October

Late registration: 22th October - 18th December

Abstract Submission: 1st July - 30th September

Notification of acceptance: 15th October

For the abstract submission, please follow the instructions in the website:

<https://www.argentina.gob.ar/cnea/frontiers-condensed-matter-vii/abstract-guidelines-submission>

Finally, we are pleased to announce the Satellite School “Técnicas Experimentales de la Materia Condensada”. It will be an in-person event, the classes will be taught in Spanish from 25th November to 17th December, at the same venue of the FCM2024. The practical classes will take place in the Condensed Matter department. Please visit the web page for detailed information or contact the organizers Leticia Granja (granja.l@gmail.com) and Joaquín Sacanell (joaquinsacanell@cnea.gob.ar).

We also remind you of the XI Workshop on Novel Methods for Electronic Structure Calculations (XIWNMESC), which will take place virtually on December 16 and 17 prior to the FCM. This event will feature presentations by renowned speakers on topics closely related to the FCM. The FCM organization plans to allow attendees to watch the oral presentations from the Emma Perez Ferreira auditorium.
